Lifestyles™
Live Better. Every Day.

**NutriaPlus is a powerful
antioxidant supplement**

formulated with fruit and vegetable concentrates,
plant extracts, vitamin C and selenium to help your body
defend itself against the health challenges of modern life!

**NutriaPlus is the
first natural health product
to be formulated using
Zebrafish research!**

NutriaPlus was created to work even Better Together when combined with Intra – *as well as being a more potent, health protector!*

Zebrafish are excellent for research because:

- they share 70% of the human genetic code
- they share 85% of the genes that cause human disease
- they are transparent - researchers can study their cells easily
- they are the ideal way to see how nutrients function in the body
- they grow quickly and breed rapidly

A few human diseases Zebrafish are being used to study:

- Cancer
- Heart disease
- Allergies
- Effects of environmental toxins and pollution

The Research Process - how NutriaPlus was developed:

- Nutria Plus was developed in conjunction with the zebrafish research laboratory at Acenzia Inc.
- By exposing the zebrafish to stress, pollution, certain chemicals and then giving them combinations of natural ingredients, you can quickly observe the effects of the formula on their cells
- When you are trying different combinations of natural ingredients, you can quickly see which ingredients work better together (the synergistic effect)
- We were able to develop a **combination of 12 synergistic ingredients that showed amazing results in helping human health!**
- The results observed in the zebrafish will also be observed in humans - this is a very reliable method of determining what will benefit human health

Proven benefits of NutriaPlus:

- Reduces cell damage caused by the toxic effects of pollution and chemicals
- Cell Health - reduces inflammation at the cellular level
- Keeps healthy cells healthy your entire life

The 12 synergistic ingredients in NutriaPlus:

- | | |
|--------------|---------------------|
| • Amla | • Prune |
| • Broccoli | • Red Beet |
| • Carrot | • Spirulina |
| • Garlic | • Alpha Lipoic Acid |
| • Grape Seed | • Selenium |
| • Green Tea | • Vitamin C |

Better Together **PLUS**
70% MORE
ANTIOXIDANT POWER

when combined with Intra!*

* compared to original Nutria formula plus Intra

The Zebrafish story...

A LOT LIKE US!

Did you know...

Lifestyles is the first company to use the Zebrafish research model to develop and improve the benefits of a natural health product!
