

# Recognizing Success

## Pornpavee (Palmy) Arunnaveesiri Executive Director, August 2009

***"Don't fear! When your goal is to give the best to others, you learn to let go of your fear. You will be willing to do anything. You will believe you can do anything. And you WILL DO anything!"***

Palmy is a survivor of life. She came to Canada in 2005 without knowing any friends, without having any idea where to go and how to start, without knowing any English to help her along with this major decision to build her life anew.

To support herself and the family, she went into credit card promotion. She earned her living on commission basis for 2 years. She also tried her luck in joining networking and direct sales companies. But that only got her disappointed because their products were expensive and they were not as good as she believed them to be. And she found their compensation plan not to her expectations. She was also looking for a stable support system from the company and from the uplines. Unfortunately, the previous companies didn't provide her that.

Palmy has known from the start what she wants to do in her life – she wanted to start a business. She found the office environment too limiting for her. She worked very hard without getting sufficient income in return. She rushed every morning to hit the punch card. She rushed every lunch with only one hour break time. She knew she could do more than this. She wants to have a business but she has no capital to get started with.

It must have been the right time for both of them when Sabine Ho introduced Lifestyles to Palmy. Sabine invited her to attend the Wednesday meeting so she could meet Lily – the person whom Sabine described as a living testimony that this Lifestyles business can change people's lives for the better. Just by hearing about GMD Lily Ho's life story from Sabine, Palmy got so inspired and couldn't wait for Wednesday. She insisted Sabine take her to the Lifestyles office right away. She wanted to see the company. She was interested to find out how big this company is and how many the compensation plan works.

That day turned out to be one of Palmy's turning points to start her Lifestyles business. Her determination, her perseverance, and her positive attitude gave her a good foundation in building this business successfully. She joined on March 2009 and became a Direct Distributor the month after. She got promoted to Regional Director in May. And now, she has just joined the ranks of the newly promoted Executive Directors in August.

Her success in building the Lifestyles business was made possible through the support of her uplines GMD Lily Ho, IMD Bonnie Ting, sponsor upline, Sabine Ho and crossline EXE Patrick Mahoney and other distributors who have been very patient in teaching her what she needed to know. She is grateful most of all to her downlines who trusted her to work with them and support them.

***"Believe in the product first. Try it and see the benefit for yourself. This will give you the confidence to talk to anyone without fear of rejection. Don't think ahead about the "NO" you'll possibly get. Just SHARE your story – you are sharing something that is going to be good for people. If they believe you NOW, one day, they will thank you for it."***
